DIAMONDCARE
Powered by KIMBERLITE PARTNERS, LLC

Unlock Netsuite's True Potential

DiamondCare is aimed at providing the highest level of post implementation support on the NetSuite platform.

Why Choose DiamondCare?

Your ERP is a long-term investment, but the real journey begins after go-live.

- ERP systems typically serve your business for 5–10 years.
- Cloud software evolves rapidly—new features and capabilities are introduced every year.
- With competition rising, efficiency and agility are essential.
- Many companies take a templated, one-size-fits-all approach, leaving gaps in optimization.
- Continuous support ensures higher ROI than ad-hoc, project-based fixes.

What DiamondCare Delivers

With DiamondCare, your team gains a dedicated, expert partner to keep your NetSuite system optimized, responsive, and aligned with your growth.

- Full post-implementation customer and technology support
- Access to every tool and resource needed to run NetSuite successfully
- Any type of expertise—functional, technical, or strategic
- Dedicated resources to ensure continuity and accountability
- Immediate response when issues arise (no SOW delays)
- Flexible, consumption-based pricing that scales with your business
